Course Goals

Provide an introduction to management information systems, system design and development, data communications, data management, office automation, computer hardware and software concepts. Use common software packages for business applications including word processing, spreadsheets, presentations, database, and Internet web tools.
**Required Texts**
- CIS-003 Lecture Notes and Handouts, 2014. W. Hepburn
- One of several Microsoft Office Suite reference books. Options will be discussed in class.

**Class Participation**
A portion of most class sessions will be dedicated to discussing occurrences in the news that relate to what we have discussed in class. You will be expected to participate in these discussions, and to bring topics for discussion. Class attendance and participation will account for 10 percent of your grade.

My students generally find that attendance at class sessions is helpful and there is a strong positive correlation between grades and attendance; however, I do not drop students for poor attendance.

**On-line Component**
This section of CIS-3 is designed as a “Hybrid” of both on-line and classroom activities. On-line activities consist of selected reading activities, viewing videos of demonstrations, and completing sections for your portfolio. We also have a “forum” where you may post messages for your classmates and instructor. The rules of classroom etiquette apply here as well as in class. Log into the course material through https://catalyst.deanza.edu.

**Homework**
Several sections of the course have short practical exercises associated with them. These exercises must be completed and turned in as described in class. I will grade them and return them the following class meeting. The homework assignments will be averaged, and that average will count 20 percent of your grade. Days on the meeting schedule marked with an “*” have a homework assignment due that day. “**” has two assignments. To the greatest extent possible, I have moved the homework assignments to be due on a Monday.

**Portfolio**
You will be expected to prepare a portfolio of your best work using computer applications. The portfolio will account for 30 percent of your grade and will be due on July 29.

**Tests**
There will be two written tests, a mid-term and a final. Each will require a short written discussion of topics that we have discussed and a demonstration of software skills. The mid-term will be distributed at the end of class on July 16 and turned in at the beginning of class on July 20. The final will be turned in according to the campus finals schedule on the last class meeting. Each will count 20 percent of your grade.

**Time Management**
Much of your work will not be turned in until late in the quarter. Use your time effectively and do not wait until the last minute. Remember this is a four and one half-unit course. You must allocate an appropriate amount of time both inside and outside of class to complete the work. In a summer session, this is critical.
**Grades**

Course grades will be computed as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percent</th>
<th>Grade</th>
<th>Percent</th>
<th>Grade</th>
<th>Percent</th>
<th>Grade</th>
<th>Percent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>&gt; 97</td>
<td>B+</td>
<td>87 – 89.9</td>
<td>C+</td>
<td>77 – 79.9</td>
<td>D</td>
<td>63 – 66.9</td>
</tr>
<tr>
<td>A</td>
<td>93 – 96.9</td>
<td>B</td>
<td>83 – 86.9</td>
<td>C</td>
<td>70 – 76.9</td>
<td>D-</td>
<td>60 – 62.9</td>
</tr>
<tr>
<td>A-</td>
<td>90 – 92.9</td>
<td>B-</td>
<td>80 – 82.9</td>
<td>D+</td>
<td>67 – 69.9</td>
<td>F</td>
<td>&lt; 60</td>
</tr>
</tbody>
</table>

Late submissions of assignments will be assessed a 10 percentage point penalty for each class day they are late without documentation of illness, death in the family, etc. All work must be turned in by the final exam date.

**Academic Integrity**

From the California State Educational Code (#76130): “The following types of misconduct for which students are subject to disciplinary sanction apply at all times on campus as well as to any off-campus functions sponsored or supervised by the college: cheating, plagiarism or knowingly furnishing false information in the classroom or to a college officer.” Violations will result in a grade of “0” for that assignment.

**Contacting the Instructor**

The best way to contact me outside of class is by e-mail at hepburnbill@deanza.edu. I check my e-mail frequently. However, I do NOT accept assignments via e-mail or through the on-line materials unless special arrangements are made in advance.
