Accounting 1A/Financial Accounting - Part 1
Summer 2018 – Mon-Tues-Wed-Thurs(10:00am-12:15pm)

Mark Martinelli, M.B.A.
5 Units

STUDENT GREETINGS AND WELCOME

I welcome you to my class and look forward to working with all of you. All students can achieve success in this course. Accounting is a universal subject that can be a tool to improve the quality of your life – personally as well as professionally. Your investment in this course will be much rewarded to you throughout your life.

I am here to help you achieve your goals in this course. We will need to work together to achieve this success. Accounting is a subject that is easy to learn if you are willing to invest a steady amount of time and effort.

Our success in this course requires a team working approach. So please feel comfortable to introduce yourself and share your career goals. Learning your names and finding out your career goals are important to me; so please come up and introduce yourself.

COURSE OBJECTIVES:

The **primary objective** of this course is to help students learn how accounting meets the information needs of various users by developing and communicating information that is used in decision-making. Accordingly, the **expected student outcome** is the demonstration that the student can prepare, analyze, and interpret financial statements. This course is the first of a three course series at De Anza College; the first two courses cover financial accounting and the third course deals with managerial accounting.

The student will:

- A. Recognize the accounting's role in society and how accounting meets the information needs of investors and creditors.
- B. Analyze fundamental business concepts, how businesses operate, and how accounting serves them.
- C. Analyze fundamental accounting concepts underlying financial statements.
- D. Evaluate the usefulness of information produced by an accounting system and how it is directly related to that system's design.

STUDENT LEARNING OUTCOMES (SLOs):

At the end of this course a student should be able to:

- Demonstrate a knowledge of double entry accounting for business transactions and adjustments; and prepare, explain and analyze financial statements using GAAP or Generally Accepted Accounting Principles.
- Analyze fundamental business concepts, how businesses operate, how accounting serves them, and identify ethical issues in an accounting context.

FULL COURSE OUTLINE:

- See: <http://deanza.edu/catalog/courses/outline.html?cid=ACCT1A>

COURSE MEETINGS, LOCATIONS, CONTACT INFO, AND PREREQUISITES:

Class Meetings:	Mon.-Tues.-Wed.-Thurs 10:00am-12:15pm
Class Location:	Class-Room: L84
Office Location:	Old Admin.Building
Office Hours:	Mon.-Tues.-Wed.-Thurs 12:15pm-12:45pm Or by Appointment
Contact Info:	
E-Mail:	martinellimark@fhda.edu <i>(Best way to contact me)</i>
Course Prerequisites:	Advisory: English Writing 211 and Reading 211 (or Language Arts 211), or English as a Second Language 272 and 273; Mathematics 212 or equivalent.
My Faculty Website Address:	www.deanza.edu/faculty/martinellimark/

Accounting 1A/Financial Accounting - Part 1
Summer 2018 – Mon-Tues-Wed-Thurs(10:00am-12:15pm)

Mark Martinelli, M.B.A.
5 Units

COURSE MATERIALS REQUIRED:

1. **Text:** ACCOUNTING, **27th Edition**, Carl S. Warren, James M. Reeve, and Jonathan Duchac, , South-Western/Cengage Learning Publishers 2018 (Chapters 1-9 DeAnza College custom edition)
See publisher's website at: <http://academic.cengage.com/login>
 - Course Registration Number (CRN) = #10286-ACCTD-001A-03
 - Cengage URL = Course Key = E-Y84EPND6CF773
 - Access Code = Inside front cover of each student's textbook (unique to each book)
2. **Internet access** required to complete assignments. Homework, quizzes, and course projects must be completed online using the publisher's Cengage Learning system. Information will be provided in class about registering in the system.
3. **Student Registration URL:** <https://login.cengagebrain.com/course/E-Y84EPND6CF773>
4. **Calculators, computers, cell phones and writing materials.** Cell phones are not allowed during class (please turn cell phones off and remove them from tabletops). Other electronic devices(such as laptops) are to be used only for assigned class work(not emailing, surfing the web, facebook, etc.). Cell phones cannot be used for calculators during exams or quizzes in class(use basic calculator with no communication ability). Cameras(including camera phones) are not to be used in the classroom to take pictures at anytime.

COURSE FORMAT AND EXPECTATIONS:

Class Format: This course is a lecture course to introduce new topics and to review assignments. Class lectures will focus on the textbook's PowerPoint slides which closely follow the headings and subheadings of the respective chapters. In addition to the lectures, the course will be composed of illustrations, group-work and homework – all of which are intended to reinforce your reading of the chapters covered during that specific class period. Quizzes, tests, and course projects will assess your comprehension of the material.

Regular attendance – regularly and actively participating in each class period - is expected. You are expected to attend all scheduled class meetings. If your attendance in class is high, a higher course grade may be achieved. **Class participation** is always encouraged. Asking and answering questions makes the class interactive and much more beneficial. It is your choice as an adult to attend class; its your responsibility to manage your academic success. Be punctual, be on time and be in class for the entire class period.

Keep current: Students are expected and encouraged to **read the current chapter** in the text and complete the Study Tool assignments on Cengage **before** coming to class on the day that the lecture/discussion is scheduled. Students will be also expected to prepare assigned exercises and problems at the end of each chapter between scheduled class periods. Students will be expected to **work together** in assigned groups (both inside and outside of the classroom) and prepare assigned exercises/problems/cases at the end of each chapter along with group projects/quizzes (both oral and written presentations will be expected). **Note: the instructor reserves the right** to make changes in the course schedule and learning activities as deemed necessary.

Academic integrity is expected from each student. This includes academic honesty. Unacceptable behavior during exams would include, but not limited: plagiarism; access to unauthorized materials during an exam; looking at another student's exam; verbal or written communication with another student; sharing electronic devices. There will be **zero tolerance** for cheating such as copying (or allowing another student to cheat) on a test, quiz, or other assignment. Any student found cheating (or the appearance of cheating) on an exam or quiz will be awarded an F on that exam or quiz. Photo identification may be required for exams. Both exams and quizzes will have a time limit for duration. Therefore, either exams or quizzes turned in late will be assessed a ten-percent-materiality-late-penalty.

Any **misconduct** which in the view of the instructor is deemed to be a disturbance to the class and a distraction to the other students will result in the **dismissal** of that particular student from the class. In addition, students may be suspended from the course and disciplined by the De Anza College Administration Unit.

Punctuality is important in accounting; therefore all assignments (exams, quizzes, etc.) must be turned in on time. Extra time for class tests and quizzes will not be given for either tardiness or having to leave early. Also, late arrival to

DE ANZA COLLEGE
Business/Computer Science/Applied Technologies Division

Accounting 1A/Financial Accounting - Part 1
Summer 2018 – Mon-Tues-Wed-Thurs(10:00am-12:15pm)

Mark Martinelli, M.B.A.
5 Units

class on assignment due dates will result in a ten-percent-materiality-late-penalty being accessed. All student work (exams, quizzes, homework, course projects) must be returned to the instructor **at his request** for course records.

Class Withdrawal: Once a student has enrolled in this class, it is the **student's responsibility** to withdraw; otherwise an appropriate grade will be assigned at the end of the term. It is not the instructor's responsibility to drop a student. **Note:** should a student fail to show that they are actively working toward completion of the course, **the instructor reserves the right** to drop the student at the instructor's option.

Important Summer Quarter 2018 Dates:
 Last day to add: July 8th;
 Census Day: July 10th;
 Last day to drop with a refund or credit: July 4th;
 Last day to drop with no record of grade: July 9th;
 Last day to drop with a "W": August 1st

Please note: It should also be pointed out that a student will also be dropped by the instructor for not showing up ("no-shows") on the **first day of class**. A student must provide a legitimate reason for not being able to attend the first day of class as well as making arrangements with the instructor prior to the first day of class in order to not be dropped for failing to attend the first day of class. Also, in conjunction with the **State of California census requirement**, students will be dropped if they are not regularizing attending class during the first two weeks of class.

METHOD OF EVALUATION:

Final grades will be determined by Study Tool and Homework Assignments, by 2 course projects (chapter problems/cases), by 8 unannounced quizzes, by 1 midterm exam, and by one final exam. Each course project problem will be **weighed equally, or accordingly**, as will the Study Tool and Homework Assignments, the 10 unannounced quizzes, the 1 midterm exam, and the final exam. Both exams and quizzes (**some maybe unannounced**) may consist of either multiple choice, problem solving questions, and/or fill-in, short-answer questions. Midterm exam and final exam will be **solely individual** and will each weigh 20% of the final course grade.

TESTS, QUIZZES, COURSE PROJECTS:

The course points will be accumulated in the following breakdown of course activities:

<u>TYPE OF WORK</u>	<u>CHAPTERS</u>	<u>POINTS</u>	<u>PERCENTAGE</u>
1 Midterm	#01 - #04	200	20%
1 Final Exam	#01 - #09	200	20%
2 Course Projects	#01 - #06	100	10%
10 Study Tools Assign.	#01 - #09	100	10%
10 Homework Assign.	#01 - #09	100	10%
10 Unannounced Quizzes	#01 - #09	300	30%
-----		-----	-----
Total:		1000	100%
		=====	=====

FINAL GRADES:

The final course grade will be based on the following accumulated points:

A	=	900-1000
B	=	800-899
C	=	700-799
D	=	600-699
F	=	Below 600 Points

The **2 Course projects** will consist of assigned chapter problems/cases (selected by the instructor) to be completed at assigned dates (check calendar on Page #6 of syllabus) during this quarter. These course projects are to be turned in thru the CengageNOW2 Software online. **No late course projects will be accepted.**

5 Units

No individual makeup exams will be allowed or exams allowed to be taken early; this means both midterms and final exams. Nor will study tool assignments, quizzes (announced or unannounced) or course projects be allowed to be madeup. Final Exam is **comprehensive**; failure to take final (at the college final's week scheduled time) will result in a failing course grade.

ACADEMIC ACCOMMODATIONS

Students with learning challenges supported by documentation from Disability Support Services should contact the Instructor ASAP so that the proper accommodations can be made. Accommodations will not be provided without proper documentation.

PURCHASING COURSE TEXT

REMEMBER: There are 3 ways to purchase the text for this course:

Options:

1. From the De Anza Bookstore which sells the textbook – in loose-leaf format - in 3 different sections (1A, 1B, 1C) with a quarter-long access code enclosed in each of the sections for the required online internet access to CengageNOW2. This option is the cheapest approach. **Please note:** you must use the 27th Edition.
Please note: When you take Accounting 1A, 1B or 1C, you will buy loose-leaf text pages and quarter-long access codes. Beware of purchasing used sections with no codes attached and save your proof of purchase in case you are unable to complete this course. If you should drop or fail this course and wish to retake it, you may be able to get a replacement code from De Anza. Please note: if you took the course earlier than Fall 2016 and used the Warren 26th edition, you will need to buy a new code for the new 27th edition.
2. Buy the entire textbook online or at another bookstore or source. In this case, you will still need to buy the access code for online access. This option is probably the most expensive approach.
3. Or buy the code online directly from CengageNOW2. You purchase the access codes with varying time limits and also full text copies. In other words, if the access code is purchased online, the student is given an opportunity to purchase a hard copy of the text. This option is not recommended because the hardcopy of the book will be a permanent resource while the e-book access expires after 90 days, and because the price is about the same. This code is for online access only – e-book only, no hard copy text.
Please note: There is a special Cengage/De Anza microsite using a unique technical support URL that has been specifically created for De Anza students <http://services.cengagebrain.com/course/site.html?id=1918686>. Using this unique site will provide several advantages over the Cengage's standard Technical Support site. For example, no login is required; there are streamlined live support options available, as well as customized FAQ and alerts readily available.

Please note: Homework and Quizzes will be completed online at CengageNOW2. For CengageNOW2 registration, you will be given a class COURSE KEY. Be sure to record your login/password in a safe place. Use your official name – the name that you used when you enrolled at De Anza College - when you are registering. Problems with your account? Contact **Cengage Customer Support** – 1-800-354-9706.

EXPECTATION AGREEMENTS

As my student, I would expect from you:

As your instructor, you would expect from me:

<p><u>Student Expectations:</u></p> <ol style="list-style-type: none">1. Be on time and prepared for each class by reading the chapter to be covered and at least reviewing homework assignments(for familiarity)2. Read the chapter or problems to be covered in class before that class3. Participate respectively in class with both instructor and fellow students4. Check emails for upcoming assignments, quizzes, and pretest materials5. Check CengageNOW-V2 for homework assignments, quizzes, tests, etc.6. Before beginning of class, turn off cell phones and place out of site7. The action of enrolling into this class, verifies that the course syllabus is understood, prerequisites and proper enrollment have been met, and there are no conflicting time commitments8. Complete “Instructor Requests” form located on Page 7 of syllabus	<p><u>Instructor Expectations:</u></p> <ol style="list-style-type: none">1. Be on time and prepared for class activities including lectures, illustrations, and other class interactive activities.2. Be prepared to respond to student questions, emails, and research topics of interest3. Be available during office hours and by appointment4. Routinely check for student emails and respond back by the next class period
--	---

SOME FRIENDLY ADVICE

Most students who have taken accounting courses know that Accounting is a very "**labor intensive**" subject requiring both time and effort beyond that thought normal for most other college level courses. If accounting is to be mastered, it will take both time outside the classroom and effort in the form of working accounting problems. Homework assignments are made for these purposes. If you are to do well in this course, you should expect to put in **two hours** of concentrated study outside the classroom for each hour in the classroom.

It should also be stressed: Accounting is a "**building block**" or "cumulative based" subject; much like taking a foreign language or a math course. Each chapter's learning objectives are building blocks for the concepts and processes that will be introduced in subsequent chapters. Mastering each chapter's learning objectives as presented will make it easier to learn subsequent chapters' learning objectives. So be prepared for each class, keep up with the assignments, work in groups to share ideas, questions, and concerns, and take advantage of available teaching resources. Plus, communicate with your instructor. Your instructor is here to assist your learning and mastering of this course's subject material to be beneficial in your future education and future life goals.

REMEMBER: Accounting is a do-it-yourself-class. An instructor will do everything possible to make the learning process easier, but **you** are the one who must do the learning.

Good luck, have a wonderful Quarter, and welcome to Accounting 1A.
