# De Anza College Office of Institutional Research and Planning 

To: Jerry Rosenberg, PSME Dean

From: Mallory Newell, De Anza Researcher
Date: 10/31/2016
Subject: Math Early Assessment Program (EAP) Students - 2011 to 2015
All high school juniors are now required to take the EAP exam in the spring of their junior year as part of the Smarter Balanced test. The purpose of the exam is to inform students and parents of the student's readiness for college-level work. If a student is found to "Exceed the Standard" they are eligible for college-level math at any California State University (CSU) campus. The student does not need to take a placement test at the CSU or take any developmental courses.

If the student is "Conditionally Ready for CSU or participating CCC college-level math courses", the student must pass an approved math course with a C or better in their senior year. If they do not meet the conditional requirement, they will be required to participate in the CSU's Early Start Program, unless exemption was met through another pathway.

The California Community College Chancellor's Office has also approved the use of EAP scores in lieu of a placement test for students who meet the standard:
http://extranet.cccco.edu/Portals/1/SSSP/Matriculation/Assessment/Clarification\ SAT\  ACT\%207-1-2015.pdf. The CCCO maintains a list of current community colleges who use the EAP exam as an alternative to placement: http://extranet.cccco.edu/Divisions/StudentServices/EAP/AcceptingEAP.aspx.

For this analysis, students who took the EAP exam in a Santa Clara County High School between spring 2011 and spring 2015 and either met the standard or conditionally met the standard in math were included. The analysis looks at the first math course the student enrolled in at De Anza and their success rate in that course. Currently, De Anza does not accept EAP scores for either English or Math, so all students in this analysis were required to take a placement test prior to enrolling in the math class, or show equivalency.

## Recommendation:

- It appears that students who are eligible as well as conditionally eligible to enroll in collegelevel courses on their EAP exam will do well if placed directly into a college-level math course (i.e. Math 114 or Math10) at De Anza College.
- Since data shows that the likelihood of completing a college-level math course decreases at every subsequent level a student must complete, accepting students who are conditionally eligible into a college-level course would increase their likelihood of completing transfer-level math, thus increasing the overall completion rates in the math department, and help more student complete their educational goal.

Table 1. Number of Students who were Eligible or Conditionally Eligible for College Math

|  | Santa Clara High School <br> Students Eligible for <br> College Math | \% of Santa Clara High <br> School Students Eligible <br> for College Math | Santa Clara High School <br> Students Conditionally <br> Eligible for College Math | \%of Santa Clara High <br> School Students <br> Conditionally Eligible for <br> College Math | Total Santa Clara High <br> School Students <br> Eligible/Conditionally <br> Eligible for College Math |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Spring 2011 | 1,823 | $43 \%$ | 2,417 | $57 \%$ | 4,240 |
| Spring 2012 | 1,725 | $38 \%$ | 2,838 | $62 \%$ | 4,563 |
| Spring 2013 | 1,837 | $39 \%$ | 2,929 | $61 \%$ | 4,766 |
| Spring 2014 | 1,256 | $31 \%$ | 2,733 | $69 \%$ | 3,989 |
| Spring 2015 | 1,608 | $57 \%$ | 1,218 | $43 \%$ | 2,826 |

Note: Enrollment was tracked between summer 2010 and spring 2016.
Table 1 displays the number of students who attended a Santa Clara County high school and were either eligible for college-level math in their junior year of high school or were conditionally eligible. For students who took the test in spring 2015, they would likely not enroll until fall 2016, though some students may attend sooner to take college-level courses. Fall 2016 was not included, as grades were not yet available.

- Overall, a higher percentage of students are conditionally eligible for college math than those that are eligible, $58 \%$ versus $42 \%$ on average.

Table 2. Enrollment in a Math Course at De Anza by EAP Status

|  | Eligible for College Math <br> and Enrolled in a Math <br> Course at DAC | \% Eligible for College <br> Math and Enrolled in a <br> Math Course at DAC | Conditionally Eligible for <br> College Math and <br> Enrolled in a Math <br> Course at DAC | \% Conditionally Eligible <br> for College Math and <br> Enrolled in a Math <br> Course at DAC | Total <br> Eligible/Conditionally <br> Eligible for College Math |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Spring 2011 | 231 | $5 \%$ | 431 | $10 \%$ | 4,240 |
| Spring 2012 | 192 | $4 \%$ | 487 | $11 \%$ | 4,563 |
| Spring 2013 | 220 | $5 \%$ | 498 | $10 \%$ | 4,766 |
| Spring 2014 | 133 | $3 \%$ | 344 | $9 \%$ | 3,989 |
| Spring 2015 | 41 | $1 \%$ | 2 | $0 \%$ | 2,826 |

Note: Includes the first math course enrolled.
Table 2 displays the students who took the EAP exam in their junior year of high school at a Santa Clara County high school, and were either eligible to enroll or conditionally eligible to enroll in a college-level math course, and enrolled in a math course at De Anza.

- On average (excluding spring 2015 due to the small sample), $4 \%$ of eligible and $10 \%$ of those conditionally eligible in Santa Clara County enrolled in a math class at De Anza.

Table 3. Course Enrollment by EAP Status

| Eligible |  |  | Conditionally Eligible |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

| D05I | 1 | 0\% | D049B | 1 | 0\% |
| D052 | 2 | 0\% | D05I | 3 | 0\% |
| Total | 817 | 100\% | D052 | 2 | 0\% |
|  |  |  | D217 | 2 | 0\% |
|  |  |  | Total | 1,762 | 100\% |

Note: Includes the first math course enrolled.
Table 3 displays students who were required to take a placement test and their first math course enrolled at De Anza by their EAP status.

- Of the student who were eligible to enroll in a college-level math course, the top 5 courses in which they first enrolled were: Math10 (23\%), Math1A (18\%), Math1C (14\%), Math41 (9\%), and Math1B (8\%).
- Only 15 students placed into basic skills Math210 or Math212.
- Of the students who were conditionally eligible, the top five courses in which they first enrolled was Math114 (29\%), Math10 (19\%), Math41 (16\%), Math212 (13\%), and Math1A (5\%).
- Of this group, 14 placed into the lowest level basic skills course, Math210, and 227 placed into Math212, the basic skills course at two-levels below transfer level.
- If De Anza were to accept student who are conditionally eligible into college-level math, the 227 students who placed into Math212 may be eligible to enroll in Math114 or Math10.

Table 4. Success Rates by EAP Status

|  | Success |  | Non Success |  | Withdraw |  | Total |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Grades | Percent | Grades | Percent | Grades | Percent | Grades | Percent |
| Eligible | 701 | $86 \%$ | 65 | $8 \%$ | 51 | $6 \%$ | 817 | $100 \%$ |
| Conditionally Eligible | 1,387 | $79 \%$ | 256 | $15 \%$ | 118 | $7 \%$ | 1,761 | $100 \%$ |
| Total | 2,088 | $81 \%$ | 321 | $12 \%$ | 169 | $7 \%$ | 2,578 | $100 \%$ |
| All Math Courses | 83,886 | $64 \%$ | 27,509 | $21 \%$ | 19,967 | $15 \%$ | 131,362 | $100 \%$ |

Note: Includes the first math course enrolled.
Table 4 displays the success rates in the first math course enrolled for all EAP students in the analysis by EAP status. Their rates are also compared to the overall Math success during the same time period.

- Students who were conditionally eligible exhibited a success rate in the first course enrolled over the time period of $79 \%$ compared to $86 \%$ for those that were eligible.
- This is compared to an overall success rate in all math courses in the same time period of 64\%.

Table 5. Success Rates of Students who were Eligible and their Success Rates

| Eligible |  |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| D05I |  |  | 1 | 100\% |  |  | 1 | 100\% |
| D052 | 2 | 100\% |  |  |  |  | 2 | 100\% |
| D114 | 34 | 87\% | 3 | 8\% | 2 | 5\% | 39 | 100\% |
| D210 | 3 | 100\% |  |  |  |  | 3 | 100\% |
| D212 | 10 | 83\% |  |  | 2 | 17\% | 12 | 100\% |
| Total | 701 | 86\% | 65 | 8\% | 51 | 6\% | 817 | 100\% |

Note: Includes only the first math course they enrolled in.
Table 5 displays the success rates of students who took the EAP and were eligible for college-level math.

- Based on the top 5 courses by enrollment, students who enrolled in Math1A exhibited a success rate of $86 \%$, students in Math1B had a success rate of $72 \%$, students in Math1C was $89 \%$, students in Math 10 was $91 \%$, and students in Math41 was $75 \%$.
- Of the 12 students who placed into Math212, their success rate was $83 \%$ and all 3 of the students who placed into Math210 were successful.

Table 6. Success Rates of Students who were Conditionally Eligible and their Success Rates

| Conditionally Eligible |  |  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Success |  | Non Success |  | Withdraw |  | Total |  |
|  | Grades | Percent | Grades | Percent | Grades | Percent | Grades | Percent |

| D04I | 227 | $79 \%$ | 38 | $13 \%$ | 24 | $8 \%$ | 289 | $100 \%$ |
| D042 | 33 | $85 \%$ | 6 | $15 \%$ |  |  | 39 | $100 \%$ |
| D043 | 46 | $53 \%$ | 27 | $31 \%$ | 14 | $16 \%$ | 87 | $100 \%$ |
| D044 | 8 | $89 \%$ |  |  | 1 | $11 \%$ | 9 | $100 \%$ |
| D046 | 2 | $100 \%$ |  |  |  |  | 2 | $100 \%$ |
| D049A | 1 | $100 \%$ |  |  |  |  | 1 | $100 \%$ |
| D049B | 1 | $100 \%$ |  |  |  |  | 1 | $100 \%$ |
| D05I | 3 | $100 \%$ |  |  |  |  | 3 | $100 \%$ |
| D052 | 2 | $100 \%$ |  |  |  |  | 2 | $100 \%$ |
| DI14 | 416 | $81 \%$ | 74 | $14 \%$ | 23 | $4 \%$ | 513 | $100 \%$ |
| D210 | 12 | $86 \%$ | 2 | $14 \%$ |  |  | 14 | $100 \%$ |
| D212 | 206 | $91 \%$ | 18 | $8 \%$ | 3 | $1 \%$ | 227 | $100 \%$ |
| D217 | 2 | $100 \%$ |  |  |  |  | 2 | $100 \%$ |
| Total | 1,387 | $79 \%$ | 256 | $15 \%$ | 118 | $7 \%$ | 1,761 | $100 \%$ |

Table 6 displays the success rates of students who took the EAP and were conditionally eligible for college-level math.

- Of the top 5 courses by enrollment, students enrolled in Math1A exhibited a success rate of $72 \%$, Math10 was $82 \%$, Math41 was $79 \%$, and students in Math114 was $81 \%$.
- The 227 students who placed into Math212 had a success rate of $91 \%$, compared to the 2015-16 overall success rate of $58 \%$. The high success rate of this group indicates they would likely be successful completing Math114 or Math10 as their first course.
